

ADVANCING MANUFACTURING WITH AUTOMATION & ROBOTICS

MAY 7TH, 2019
8:30AM-12:00PM

*Do you want to learn more about implementing
automation and robotics into your facility?*

\$50/PERSON

Breakfast included
Registration ends April 30th

Manufacturers have a wide variety of opportunities for improvement in their facilities, and now automation and robotics have become more cost effective than ever before.

Learn what options are available and how they can be used to streamline, supplement, or improve existing manufacturing operations at this new workshop.

We will have collaborative robots on-site for demonstrations, hands-on experience, and more.

Workshop Description:

This workshop will cover the following topics and more:

- Overview of the types of automation and robotics currently available
- Trends in automation and robotics
- Real world solutions to practical manufacturing problems
- Identifying opportunities for automation and robotics in your existing facility
- Collaborative robot information and demonstrations
