

## ISO 9001:2015 Internal Auditor Training

**Do you have a new Quality Manager who needs trained?  
Have you expanded your internal audit team?  
Could your team benefit from education on internal auditing,  
corrective actions, and root cause analysis?**

### ABOUT THE SEMINAR

This one-day course is designed to prepare auditors to conduct internal system audits, identify relevant root causes, identify opportunities for system improvements, and develop sustainable corrective actions.

The course is tailored to the participants, includes case studies, and applies practical application of the auditing process so that you can maximize the value of auditing without spending more time conducting the audits.

### WHO SHOULD ATTEND?

- New quality managers, engineers, representatives
- New internal auditors
- An entire internal audit team
- Quality Leads needing ISO 9001:2015 education

### ABOUT THE PRESENTER

**Staci P. Miller**

Staci Miller has 20+ years of combined experience with both quality and environmental health and safety management systems. She has extensive experience with regulatory compliance and auditing and has worked in manufacturing and consulting capacities. In recent years, Staci has served in senior leadership positions for publicly traded companies and global manufacturing operations.

She has direct experience in developing and improving ISO 9001 & 14001 management systems, has trained nearly 100 internal auditors, and provides hands-on coaching and on-boarding for new quality managers.
